

June 20, 2001

Mr. Brian Bergstrom
President – Securenet Inc.
3440 Sojourn, Suite 240
Carrollton, TX 75006

Dear Mr. Bergstrom:

In the process of expanding the Network I've been asked what firm is best suited for performing the job, my response: SecureNet. In the past four years we have been adding office towers and airport facilities to the tolltag parking network and have relied on SecureNet Company associates for both the technical expertise as well as the actual installation. Your associates have performed an outstanding job in both areas.

As we continue to expand the , we plan to continue to include your firm. We appreciate the time and attention your firm gives to detail and how well your associates keep up with the ever-evolving nature of technology and its application to automated parking technology. We feel comfortable recommending your firm to any perspective client considering your services.

Please feel free to call me if I can be of any assistance to you. Also, please feel free to use us as a referral.

Sincerely,

Miguel A. Del Valle II
Chief Operating Officer
