SecureNet, Inc.
2600 McHale Court #140
Austin, TX 78758

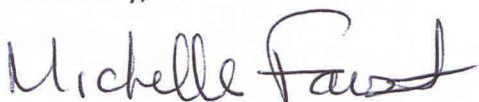

To Whom It May Concern:

I would like to take this opportunity to recognize SecureNet for their professionalism and commitment to supporting district-wide IP surveillance system using OnSSI Digital Video Management System with Sony IP cameras and analog encoders.

SecureNet was selected as a competitive vendor to convert over 200 existing digital cameras to IP using Sony encoders. SecureNet was instrumental in assisting RRISD's effort to centralize recording servers so that our 450 plus cameras from 12 different campus locations stream over the district's network to record on servers located at our data center. SecureNet is also assisting the district with the installation of 300 new IP cameras at six additional campuses.

SecureNet displays competent product knowledge and continues to exceed our expectations, and we look forward to continued business with them.

Sincerely,

Michelle Faust, CSR, ARM, CPCU
Director, Safety & Risk Management
