Re:

Dear Ray,

I want to thank you for the outstanding service that you provide to us at Centre. It is rare in today's world that you receive the quality service and follow-up that you provided. While the installation of the camera was a small job by SecureNet standards, you treated it like it was a major undertaking.

I look forward to working with you again in the future. If you ever have a need for my help, please never hesitate to call on me.

Sincerely  
Insignia/ESG
